

CRAZY 4 POKER®

CRAZY 4 POKER®

Crazy 4 Poker® features head-to-head play against the dealer and two bonus bets. It's an easy game to master, and players may bet up to three times their ante with a pair of Aces or better.

Game Basics

Players and the dealer receive five cards to make a four-card poker hand. A four-card straight is a straight, a four-card flush is a flush, and a four-card straight flush is a straight flush.

Playing the Game

1. Players must make the ante and Super Bonus wagers, and the two bets must be equal. After seeing their cards, players either fold or stay in the game by making the Play bet. The Play bet must match the ante, unless the player has a pair of Aces or better. With at least a pair of Aces, the player can bet up to three times his ante.
2. Crazy 4 Poker® offers two ways to win: when the dealer does not qualify, and when a player's hand beats the dealer's qualifying hand. Players win even money on their Play bet when the dealer fails to qualify with at least a King-high. Players win even money on both play and ante wagers when they beat the dealer's qualifying hand. Players lose their Play and Ante wagers when they lose to a qualifying dealer hand. If the player has a straight or better they will win on the super bonus, otherwise that bet will push or lose based on the outcome of the hand versus the dealer.
3. The optional Queens Up bet is the player's hand versus the posted pay table. It takes a pair of Queens or better to win.
