

STAY SAFE – PLAY SAFE!

Welcome back poker players! The following requirements have been established for the safety and protection of our guests and employees:

- Use of hand sanitizer is required upon taking a seat and/or returning to a table.
- Once a guest has been added to the wait list, please leave the immediate area. No congregating at the podium. Spectators are not permitted in the poker room.
- Guests will be directed to take a seat once the seat and table rail have been properly cleaned and sanitized.
- No play overs.
- Absent players will be picked up after three missed blinds.
- Second-Man-Walking: Any time a player is absent from a table, the next player to get up is given a button and informed that they must return before their next blind or their chips will be picked up. The vacated seat will be awarded to the first person on the wait list.
- Must move games will not be utilized; management will control seating to preserve the viability of existing games.
- No food or eating in the poker room.
- Beverage service will be available. Masks may be pulled down or to the side and must be replaced when not actively drinking.

We thank you for your cooperation and request that should the modified parameters fall short of your expectation of play, we invite you to return once we are able to move beyond this challenging time. We value our players and look forward to providing the best guest service and poker action in the Midwest!

Management reserves all rights.
